

The 2014 Skipping Stones Honor Awards

Each year, we recognize outstanding books and teaching resources with the **Skipping Stones Honor Awards**. The honored books promote an understanding of cultures, cultivate cooperation and encourage a deeper understanding of the world's diversity. They also encourage ecological richness, respect for multiple viewpoints and closer relationships within human societies.

The winners are listed in three categories: **Multicultural & International Books, Nature & Ecology Books, and Teaching Resources**. These unique titles offer an exciting way to explore and understand diverse cultures, places, societies and their histories. We'd like to thank the many readers and reviewers who helped us choose these great reading adventures and learning experiences for readers of all ages.
