

# 2016 Skipping Stones Honor Awards

This year we recommend 27 outstanding books and three teaching resources as the winners of our annual **Skipping Stones Awards**. These books promote an understanding of cultures, cultivate cooperation and encourage a deeper understanding of the world's diversity. They also encourage ecological richness, respect for multiple viewpoints and closer relationships within human societies. These unique titles offer an exciting way to explore and understand diverse cultures, places, societies and their histories. We wish to thank the many readers and reviewers who helped us select these great reading adventures and learning experiences for readers of all ages.

Reviews will be ready by mid-June on the website, [www.SkippingStones.org](http://www.SkippingStones.org).
