

2018 Skipping Stones Honor Awards

This year we recommend 29 outstanding books and four teaching resources as the winners of our **26th Annual Skipping Stones Awards**. These books promote an understanding of cultures, cultivate cooperation and/or encourage a deeper awareness of nature, ecology, and diversity. They foster respect for multiple viewpoints and closer relationships within human societies. The honored titles offer many ways to explore and understand families, cultures, places, societies and their histories for readers of all ages—from the very young readers to high school seniors and adults.
